

INFOSECURITY MEXICO 2021 WILL BE HELD IN OCTOBER

February 15, 2020, Mexico City

Reed Exhibitions Mexico, organizer of **Infosecurity Mexico**, today announced that the event scheduled for May 26 and 27, **has been postponed to October 6 and 7, 2021** at Centro Citibanamex, Mexico City. This decision has been made based on the current health conditions.

Commenting on the announcement, Juan Manuel Rodriguez, Show Director stated: "For Infosecurity Mexico, the health and safety of our partners, attendees and collaborators is our number one priority. Due to the current health scenario, we have made the decision to move Infosecurity Mexico to October, keeping in mind the recommendations of health authorities and being hopeful that the second half of the year will be more conducive for holding the event."

Reed Exhibitions has recently published its <u>COVID-19</u> 'Safety Shows' Health & Safety Strategy, an update of its <u>Re-Opening Events 5 Points Global Plan</u>, which stablish the "what" and "how" to reduce and manage the assessed risk of COVID-19 at its events. "Our safety and hygiene measures and protocols have been created working hand in hand with international experts. We are confident that we will be able to have our face-to-face meetings in a framework of security and tranquility for all."

Infosecurity Mexico is a meeting place for the cybersecurity industry in Mexico. It is a high-level and immersive experience where the most recognized leaders, experts and brands share their knowledge and latest innovations with the professional community seeking to increase and share their skills and knowledge with colleagues and friends, generating valuable relationships in a safe environment.

"We know how important is to keep the industry active and updated. We are committed to the entire community and will continue to offer high-level meeting and learning options in virtual formats throughout the coming months." Rodriguez said.

Reed Exhibitions would like to thank all the exhibitors, partners, attendees, suppliers, media, and staff. "Their trust and support drive us to build an even more robust business experience, where our participants can generate valuable relationships in a safe environment. Infosecurity Mexico 2021 will be the quality event that the industry expects." concluded Juan Manuel Rodriguez.
